

OPERATIONAL PARTNERS

These leaders work together with the authority, expertise, and commitment to get the job done!

The first task was to combat the dastardly consequences of Identity Theft, a terribly damaging crime that is on the rise.

Europ Assistance USA saw this need and put together this much-needed, one-of-a-kind program. We brought together the foremost experts needed to perform the arduous tasks required to undo the damage of Identity Theft.

We hand picked our Operational Partners:

To be the 24/7 initial contact for the victim, we chose **Europ Assistance USA**. This agile, experienced leader in assisting folks in dire situations throughout the world is responsible for helping ID Theft victims by: procuring the needed authorizations and affidavits, reviewing the victim's credit history, identifying potential fraud, and completing all creditor notifications. **Europ Assistance USA** has the vast resources to act with lightning speed in the critical early stages of ID Theft discovery and, thereby, save the victim time, frustration, and money by controlling and undoing damage.

When it comes to protecting yourself against credit fraud, accurate, up-to-the minute credit information is your first line of defense. **TransUnion** maintains one of the world's largest, most current databases of consumer credit information. By combining cutting-edge technology with more than 30 years of experience, **TransUnion** provides industry-leading credit fraud prevention and resolution solutions to help consumers get their credit back on track.

Theft not only causes financial upheaval in a victim's life, but case after case proves that it is emotionally debilitating as well. That is why an all-important, third Operational Partner was enlisted for this venture. IT could only be **Affinity Care, Inc.** that we would trust to provide when needed: effective psychological counseling, the resolution of disputes with creditors, and legal assistance through its nationwide attorney network.

This is truly the most well-rounded, complete program when it comes to helping victims of Identity Theft.
